CAREER OBJECTIVE

Efficient Software Engineering major (3.47 GPA) currently attending Near East University, with 2+ years of work experience. Aiming to leverage a proven knowledge of experimental design, product design, and research and development skills to successfully fill the Software Engineering Intern role at your company. Frequently praised as efficient by my peers, I can be relied upon to help your company achieve its goals.

EXPERIENCE

Founder - Bambi.app

DTOne Kenya, Nairobi, Nairobi / Feb 2019 - Present

- Bambi is a social networking umbrella I created for Near East University students. It includes Bambi Social (bambi.app) - a social network, Bambi Dating (neudating.herokuapp.com) and Bambi Market (marrket.herokuapp.com) an e-commerce store. All projects are written in Python and Javascript and are open source on my Github account (github.com/harunmohamed)

Software Engineering Intern

DTOne Kenya, Nairobi, Nairobi / Jul 2019 - Sep 2019

- Direct software programming and development of documentation.
- Analyze information to determine, recommend, and plan installation of a new system or modification of an existing system.
- Modify existing software to correct errors, to adapt it to new hardware, or to upgrade interfaces and improve performance.
- Store, retrieve, and manipulate data for analysis of system capabilities and requirements.
- Confer with data processing or project managers to obtain information on limitations or capabilities for data processing projects.
